

Differentiated Small Group Instruction with Guided Reading K-2

Includes video (full day)

This seminar will focus on linking the classroom-proven methods of guided reading with differentiated instruction to increase the level of support you are providing to your young readers in grades K-2. Judy will provide you with research-based strategies, methods and activities to help you better meet the wide range of needs in your small reading groups. You will gain new insights as you see and hear demonstrations that model the powerful methods presented. You will view many classroom video segments that illustrate the process of incorporating differentiated instruction within your guided reading groups.

TEN KEY BENEFITS

1. Incorporate the Key Strategies of Differentiation within Your Guided Reading Instruction in Grades K-2

Discover how to use differentiated instruction in your guided reading small groups to ensure that each and every student becomes a successful reader ... Learn the essential steps for combining guided reading and differentiated instruction to maximize student achievement in reading.

2. Accelerate the Reading Success of All Your K-2 Students with Ready-to-Use Strategies and Activities

Allow Judy to provide you with easy-to-use methods that build upon both differentiation and guided reading ... Create the conditions that support rapid learning for all your students

3. Differentiate Your Word-Making and Word-Solving Strategies for Emergent, Developing and Fluent Readers

Meet the varied needs of all your readers with highly productive, developmental word work ... Pick and choose differentiated lessons that support each small group and complement the text they are reading

4. Create Research-Based Small Group Lessons that Use Differentiated Materials to Meet Student Needs in Grades K-2

We know that optimal reading instruction uses materials at our students' instructional levels ... Learn simple and easy ways for matching books to your guided reading groups to complement your differentiated instruction

5. Keep the Rest of Your Students Productively Engaged While You Teach Guided Reading Small Groups

Are you tired of students playing during center time? Here are powerful literacy center ideas that will keep your students reading and writing the entire time ... Dozens of specific suggestions and a wealth of sample materials

6. Tips and Techniques for Managing Guided Reading Small Groups and Materials

Make differentiation and guided reading easier and more manageable with these outstanding organizational ideas ... Valuable tips for incorporating classroom and school-wide systems for choosing and sharing books that meet your students' needs every day

7. Align Guided Reading and Differentiated Instruction with Response to Intervention

Meet the needs of students in Tier 1 and Tier 2 Targeted groups with differentiated instruction ... Specific intervention strategies designed for students in grades K-2

8. Assess Your Students in Grades K-2 for Continual Progress

Learn easy-to-use methods for assessing the wide range of students in your class to form small guided reading groups ... Generate specific data to inform your reading instruction throughout the years

9. Strengthen your core, standards based basal with differentiated small group instruction.

Link your standards based strategies to small group daily instruction. Guided reading provides daily lessons with materials at each student's **instructional level**. Few "programs" provide enough small group differentiated books for lessons day after day. Fill that void with materials to challenge and support each student in small group lessons.

10. Ideas, Ideas, Ideas

Learn from a presenter who has used guided reading and differentiated instruction with K-2 students for over 20 years ... You'll leave with an extensive resource handbook packed with practical differentiation ideas, strategies, activities, tips, sample materials, and resources - all designed for immediate use in K-2 guided reading groups
